For the prevention and cure o
BILIOUS AND MALIGNANT FEVERS
is recommended
HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor s feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of person can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

French Creek Boarding School.

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL for GIRLS.—With this view I have purchased the FRENCH CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pikeland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniencies for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.—The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

PROPOSALS

for publishing by subscription, a new work, entitled

THE TREASURE OF HEALTH;

OR,

A complete collection of the most valuable secrets in medicine, for the cure of all diseases, wounds and other accidents to which the human body is subject; with the method of preparing, and instructions for using, the necessary remedies.

Also, the best preservatives against the plague, small pox, and all other kinds of contagious diseases.—Discovered after much research and experience by the most skilful physicians in Europe, and employed with the greatest success; and unknown till the present time in the United States.

Carefully collected, by a Benevolent Society, and faithfully translated from the French, and other foreign languages,

And published for the benefit of humanity,
BY LEWIS MERLIN.

TO THE PUBLIC.

The work which is this day offered for public usefulness, ought not to be looked upon as those which a desire of gain bring forth every day among us. This is a rare and precious collection of the most valuable secrets in medicine, which the most skilful physicians have discovered after long researches, labor and experience. It is, without contradiction, the first of the kind that has ever appeared within the United States of America, and a treasure which every head of a family could not too much appreciate; as it points out the symptoms of several diseases, of which many persons are only acquainted with their names; 2d, the receipt of the quantity and quality of the drugs that are made use of; 3d, their preparations so carefully described and detailed that the least intelligent person cannot be mistaken; and finally the necessary doses and the manner of administering them. One may rest assured that all in this collection is easy to put into practice, the expense is trifling because all the simples and plants which compose the greatest part of the receipts it contains, may be found in the fields and in the gardens; in a word, that it affords the means of curing, in a short time, all the diseases and evils with which one may be addicted, and at a low expense.

It is to a benevolent society we are indebted for such a precious treasure. Their whole good wish towards suffering humanity, induced that society to spare neither pains, care nor expense in obtaining from all parts of the globe, and to give in one and only collection, a valuable and complete selection of receipts for the cure of all diseases with which the human body is every day afflicted, which their renowned virtues, the repeated experience that has been made of them, even on patients who had been given up by their physicians, and the cures resulting from them, have caused them to be adopted as sovereign and infallible remedies.

Amongst the great number of diseases that have been cured by these inestimable secrets, we shall only name some of them, of which the foreign journals and American newspapers have borne the most authenticated testimony, such as apoplexy, asthma, bilious, windy and nephretique colic, consumption of lungs, debility, dysentery, diarrhœa, dropsy in the breast, in the brain, compound dropsy, anarsarque et ascites, epilepsy, diseases of the eyes, intermittent, tertian, quartan, continual and inflammatory fevers, malignant, spotted and scarlet fevers, hives (so fatal to children), inflammation of the bowels, of the liver and lungs, gangrene, itch, jaundice, fits, hooping-cough, lethargy, leprosy, rheumatisms, pulmonary, scurvy, swellings, sore throat, worms, tapeworm, complaints of the bowels, looseness or bloody flux, folly or madness originated after a sequel of disease, or through an intemperate use of spirituous liquors, cold and sciatique gouts, gravels, gonorrhœa, hydrophobia, bite of venomous animals, hœmorhagy, palpitation of the heart, stone, &c. &c.

This precious collection contains likewise a great number of receipts for preparing several kinds of balsame, ointment or salves, with the manner of using them, and the effects of which are so surprising, that they cure in a very short time, the cancers, without the assistance of any operation; the king's evil, tetter or ring's worm, wens; all sorts of cuts, wounds, however large and deep they may be, both inward and outward hemorhoids, all pains and swellings arising from rheumatism, all kinds of burns, all cataracts of the eyes, even those that deprive of the sight; all sores that come on women's breasts; all kinds of sore legs and ulcers, however old they may be; chancres, buboes, and other venereal disorders; they join the nerves again, when they have been cut or broken in any manner whatever; they strengthen weak nerves and prevent the palsy whenever one is threatened with it; they draw out broken bones and all other foreign bodies that may be in sores or wounds; in short, these ointments or salves do possess such a virtue against the gangrene, that many persons being at the point of having their legs, hands or fingers cut off, have been entirely cured by the application of these ointments alone.

In this interesting work will be also found the inestimable receipt of the grand preventives against the plague, pestilential, spotted and other fevers, small pox, and all kinds of contagious diseases; their preparations with the manner of making use of them both inwardly and outwardly, as well to preserve ourselves against the contagion as to be cured whenever one is afflicted with them; and wonderful and most valuable secrets in medicine—always employed with success, and never failed to cure in epidemic and contagious diseases, and unknown to the present time in the United States of America.

In short, the famous and renowned syrup of long life, or the great preserver of health, whose so extraordinary virtues have drawn the attention of a great number of physicians, although the desire of gain has endeavored to counterfeit or imitate it, but always without success. That receipt so very simple, so very easy to prepare, and of a good taste, was given by an old gentleman of one hundred and thirty-two years of age, who began to make use of it at the age of 60 without his having ever experienced the least inconvenience. The good effects which this simple receipt has always produced on the persons who have made use of it are so well known that no more need to be said on that subject; and although this work contains a great number more of other receipts and other matters not less interesting for the human body, we shall not dwell any longer on the benefits arising to the public out of this precious collection; because it is only by putting what is taught in it into practice, that the public will be convinced of the truth that there is no quackery nor deception in all that has been said, but many truths which could not be too much appreciated.

We recommend this work to heads of families, more particularly to those who reside in the country, who owing to their situation are often deprived of medical assistance in cases of the most urging necessity; it is likewise of the greatest utility to those who through their profession are obliged to visit the sick; as also to the ministers and pastors of congregations, who in their situation are likewise obliged to afford relief to suffering humanity; in short, it could not be too much recommended to captains, masters of vessels, seafaring men and other travellers, who frequent warm climates, as well as to those persons who have a desire to preserve their own health; so much the more, as (we repeat it again) that all therein contained is easy to put in practice, and the expense is small.

As the publication of this work is not an object of a pecuniary speculation, but the welfare of humanity generally, we have endeavored, as well as the expense has permitted, to fix the price of subscription as low as possible, in order that the poor as well as the rich may be able to obtain it, and experience its good effects principally in warm seasons, and in cases of contagious diseases.

CONDITIONS.

To render this work more portable, and comply with the wishes of many persons, it will form a large volume in 12mo. to be printed on good paper and good type, and delivered neatly bound and lettered to subscribers at 150 cents, to non-subscribers, the price will be enhanced to two dollars, and the profit arising from it will be for the benefit of the poor.

As soon as the subscription will be sufficient to defray the expense of printing, the work will be put to press and distributed as soon as circumstances will permit.

To prevent counterfeiting this work, the copy right has been secured according to law; and moreover each copy shall be signed by the person who has the sole direction of superintending the publication of it.

THE WATER-MELON.

[BY S. WOODWORTH.]

'Twas noon, and the reapers reposed on the bank
Where our rural repast had been spread,
Beside us meander'd the rill where we drank,
And the green willows wav'd over head;
Lucinda, the queen of our rustical treat,
With smiles, like the season auspicious,
Had rendered the scene and the banquet more sweet—
But oh! the dessert was delicious!

A melon, the sweetest that loaded the vine,
The kind-hearted damsel had brought;
Its crimson core teem'd with the richest of wine,
"How much like her kisses!"—I thought.
And I said, as its nectarous juices I quaff'd,
"How vain are the joys of the vicious!
No tropical fruit ever furnish'd a draught
So innocent, pure and delicious.

"In the seeds which embellish this red juicy core,
An emblem of life we may view;
For human enjoyments are thus sprinkled o'er
With specks of an ebony hue.
But if we are wise, to discard from the mind
Every thought and affection that's vicious,
Like the seed-speckled core of the melon, we'll find
Each innocent pleasure delicious."

DR. BEATTIE.

In the agreeable freedom and gay vivacity of the epistolary style, Dr. Beattie often excels.—The ensuing extract will support the assertion.

"I flatter myself I shall, ere long, be in the way of becoming a great man. For have I not head aches like Pope? Vertigo, like Swift? Grey hairs, like Homer? Do I not wear large shoes like Virgil? and sometimes complain of sore eyes like Horace? Am I not at this present writing invested with a garment not less ragged than Socrates? Like Joseph the patriarch, I am a mighty dreamer of dreams. Like Nimrod, the hunter, I am an eminent builder of castles 'in the air'; I procrastinate like Julius Cæsar; and very lately, in imitation of Don Quixote, I rode a horse, lean, old, and lazy, like Rosinante. Sometimes like Cicero, I write bad verses; and sometimes bad prose, like Virgil. I am of small stature, like Alexander the Great; and I drink brandy and water, like Mr. Boyd.—I might compare myself, in relation to many other 'infirmities,' to many other great men; but if fortune be not influenced in my favor by the particulars already enumerated, I shall despair of ever recommending myself to her good graces. I once had some thoughts of soliciting her patronage, on the score of my resembling great men in their qualities; but I had so little to say on that subject that I could not for my life furnish matter for one well rounded period; and you know a short ill turned speech is very improper to be used in an essay to a female deity."

A SWISS LAW SUIT.

In one of the vallies near Mont-Blanc, Frantz went one evening to Gaspard, who was turning his hay, and said, "my friend, the time is come to get up this hay—you know there is a dispute about this meadow, to whom it belong, you or me; to decide the question, I have assembled together the appointed Judges at Salenche; so come along with me to-morrow and state your claims." "You see, Frantz," answered Gaspard, "that the hay is ready; it is therefore absolutely necessary that I should get it up to-morrow—I cannot leave it."—"And I cannot send away the Judges, who have chosen the day themselves; besides we must know to whom the meadow belongs before it is cleared." They debated some time: at length, Gaspard said to Frantz—"Go to Salenche, tell the Judges my reason, as well as your own, and then I need not go myself." Frantz pleaded for and against himself, and to the best of his power gave in his own claims, as well as those of Gaspard. When the Judges had pronounced their opinions, he returned to his friend, saying—"The meadow is thine; the sentence is in thy favor; I wish you good luck with the hay." Frantz and Gaspard have ever after remained good friends.

"You are a Jew,' said one man to another; "when I bought this pig of you, it was to be a guinea, and now you demand five and twenty shillings, which is more than you asked." "For-that reason," replied the other, "I am no Jew, for a Jew always takes less than he asks."

ALEXANDRIA:
MONDAY MORNING, AUGUST 31.

Extract of a letter from a commercial house in Bremen, to another in the city of Philadelphia, dated

"*Bremen, 9th June*, 1818.

"Since we had the honor of addressing you (31st March, per Plato, via Baltimore) coffee has advanced considerable; Green Java is quoted at 27 a 28 gs; West India good, ordinary, 26 a 26 1-2 gs; superior descriptions, 27 a 31 gs. The new crop coming into Market just now, may keep the article s ationary for a little while: but the opinion that prices will be higher yet towards autumn, gains more and more ground with men of information. Serious consideration is certainly due to the facts, that coffee has become in Germany almost as indispensable as bread stuff; that our market on the present peace establishment, requires about 10 or 12,000,000 lbs. annually; and that little more than 1,000,000 has been imported since the 1st January, including what has come in two vessels just arrived from St. Domingo. We must therefore, rely this season on a liberal share in the usual re-exportation from the United States. Teas are maintained—some middling byson of last year's importation has been sold at the high price of 1 3-8 rs a 1 1-2 could be obtained for prime. Of black teas, we have received a small supply from Baltimore, being about 800 chests souchong and campoy, of the United States' cargo, which, in all appearance, will be sold at an advance on the auction prices on your side. We have sold 30 chests rhubarb, of the same cargo, at the profitable price of 1 5-6 rs per lb although a large proportion was spungy and worm-eaten.—Some cassia has arrived also—the price is 54 a 60 gs yet. A small parcel of short yellow nankeens of ordinary quality, has been sold at 75 a 81 groats. Rum is quoted as follows: New-England and Havana, 56 a 58 rs: Leewards, 50 a 65; Jamaica, 70 a 90; but these prices would of course be affected by a retrograde movement in the English market. Arrack has receded to 100 a 150 as in quality. In pepper, there has been a stir rather uncommon at this season of the year, and the price has advanced to 17 1-2 a 19 gs. Pimento 18 a 19 gs to 20. Hides are neglected, and it is rather difficult to realise the quotation of 15 a 19 gs for Buenos Ayres. Whale oil has receded materially—English Greenland, 32rs; and 500 bbls. Sea-Elephant oil, arrived from Norfolk, (Va.) have been sold on shore, being landed, at 25 1-4 a 27 rs.—The arrivals of Carolina rice, have been heavy here and at neighboring ports, direct from France—the price is 11 rs per 100 lbs, and seems likely to come down to 10 1-2 a 10. A small parcel of American flour has been sold at 8 1-2 rs per 100 lbs; and but little can be disposed of in this proportion, while we have wheat to spare 195 a 190 rs; and rye is dull at 130 a 120 rs per last of 80 bushels. Grain is expected lower yet, the prospects for the harvest generally, being very fair throughout Germany, although serious damage has been done on low lands by an inundation, quite extraordinary in the month of May. Some supplies of Tobacco have reached us—of Marylands, no fair lots of upper Patuxent have been offered this pretty long while, but assortments of ordinary, to good ordinary, with a few hhds of colory, more or less deteriorated, have averaged 18, 18¼, 19 a 19½ gs in late auctions. Supposing the estimate of the new crop we now have to look for, at 15,000 hhds to prove correct, we would think that high prices can, by proper management and repetition of shipments between this port and Holland, be maintained for the next 12 month yet. In Virginia, and similar descriptions of Tobacco, we observe but little alteration. Of the light and poor kind, we generally get more than can be sold to advantage, and the price is 10 1-2 a 13 gs only; whereas rich and heavy tobacco is always wanted, and even what cannot be rated more than ordinary to good—ordinary in the kind, sells at 15 a 21 gs. Sound Virginia stems, are 10 1-2 a 11 1-4 rs; 580 hhds have lately arrived from James river.

NOVEL OCCURRENCE.

A few days since, a cow belonging to Mr. Sprague, of Gerry, was missing, and after three days diligent search, was actually found in a hollow log, 32 feet from the butt, whither she had entered, literally wedged into the end of the hollow. And what renders the circumstance more singular, is, that after being three days and three nights, Jonah like, in the belly of the log, she was cut out, and is now living!

[*Chatauque Gazette.*

A Malay sailor, named Ally Malay, who had been guilty of mutiny and murder nearly 14 years ago, was lately discovered on board a Dutch brig lying at Bombay, by Capt. Allies, who at the time of the mutiny was gunner of the ship Endeavour, on board of which the mutiny happened. On the sailor discovering Capt. Allies, he turned his guilty head, but on being questioned, he acknowledged that he had killed six of the crew. The captain of the Dutch brig put him immediately in irons.

Geneva, (N. Y.) August 19.

FATAL ACCIDENT.

A Mr. Dynx, of Fayette, Seneca Co. while in a state of intoxication, lately had the temerity to attempt arresting the progress of a loaded wagon, by rushing between the horses and carriage, and seizing one of the wheels, when he was crushed down and bruised so severely as to terminate his existence in a few hours.

SINGULAR ADVERTISEMENT.

The following advertisement appears in a New-York paper, and we should conceive it impossible that the object stated could be performed.

"Any gentleman having five thousand dollars to spare, may have a chance of doubling his money in a small lottery proposed by the subscriber, in the three following ways:

"First. Any horse, mare, or gelding, being produced, that will trot one mile in less time than the little gray mare owned by the subscriber, shall be entitled to 1500 dollars; but, should the little grey have most foot, then the subscriber is to receive 1500 dollars from his opponent.

"Secondly. For a wager of 1500 dollars, the little mare shall trot sixty miles in six successive hours.

"Third, and lastly. For a wager of 2000 dollars, she shall leave New-York at five o'clock in the morning, and arrive in Philadelphia the same day at three, being a space of ten hours.

"☞Gentlemen desirous of trying their luck in the above scheme, will signify by letter, addressed to

WILLIAM JACKSON."

From the New-York Mer. Adver. Aug. 26.

LATEST FROM ENGLAND.

Of the numerous arrivals at this port yesterday, the fast sailing ship Emily is the latest. Captain Robinson has furnished the editors of the Mercantile Advertiser with London papers to the 18th of July, and a Lloyd's List of the 17th. The Sybil sailed from Liverpool on the 17th and has furnished us with accounts to that date.

From what we can learn of the markets, flour had improved at Liverpool, and cotton was much the same as at last accounts, but rather more depressed.

Just as the Emily left London, it was said the queen of England had relapsed into a worse state of health than ever, and her demise was considered near, on which event parliament was to be immediately assembled.

The prospect of the harvest in Sweden was unpromising—In the rest of Europe the prospects were good.

The discovery ships were spoken early in June off Spittzbergen, in lat. 79, 34, all well.

A grand entertainment was given by the Prince Regent, at Carlton House on the 15th July, in honor of the marriage of the Dukes of Clarence and Kent. Mr. Rush was one of the guests.

On the 16th, the Grand Duke Michael, of Russia, was visited by Mr. Rush, American Ambassador, accompanied by the Russian Minister.

N. York papers of the 17th June, reached London on the 16th July.

A London paper of July 11, says, "The fact of the irruption of the Americans into Florida, was known in this metropolis a week ago, and forwarded to Spain without loss of time. Curiosity is on tiptoe to ascertain the course which the king of Spain will take on hearing of these proceedings."

Mrs. Cobbett and her two daughters arrived on the 10th of July at Gravesend, in the Venus, frow New-York.

The Courier contains a list of all the members of parliament returned in Great Britain, at the late election. Those of Ireland and Scotland had not been received. Not a word is said as to the political complexion of the new parliament.

Letters from Italy give a splendid account of the entrance of Lucien Bonaparte into Rome as a senator.

Madame Garnerin, in her late æronautic expedition descended into Bordeaux river, and came well nigh drowning before assistance could be rendered.

The duchess of Parma, (wife of Napoleon) it would seem, holds her regular courts, and receives ministers from her brother sovereigns. The British minister to several of the Italian courts, is also accredited at Parma.

The late visit of the duke of Wellington to Paris, had no other object than the mediation of differences between Spain and Portugal. In this mediation the Russian ambassador is said to take great interest.

On the 16th of July, the Swedish minister announced to the Prince Regent, the death of the Queen Dowager of Sweden.

The Courier of the 18th, contains a number of letters from St. Helena, relative to the situation and treatment of Bonaparte. Among them is a note from Bonaparte himself, in his usual stile, signifying his resolution not to notice the letter of a certain English officer at that station at all, and declaring that the king of England alone is entitled to treat him on an equality. One of the letters is from Mr. O'Meary, the English surgeon who accompanied Bonaparte to St. Helena, to general sir Hudson Low. It would seem from these papers, that the latter has had some cause to suspect the propriety of some of the physicians' conduct

Accounts from Moscow, state, that the king of Prussia, and the crown prince, his son, entered that city on the 16th of June, accompanied by the emperor of Russia, and their imperial highnesses the grand dukes Nicholas and Constantine.

The king of Spain has proclaimed that the ports of entrepot shall be open to foreign trade, from the 15th of July. The ports are, Santander, Corunna, Cadiz, and Alicant. His majesty has also declared that all foreign merchandize and effects which may enter the above ports, in consequence of this decree, shall from the present time, enjoy the privileges of the entrepot.

An ordinance has been issued by the king of Sweden prohibiting all foreign artisans from passing the frontiers of that kingdom, until they receive the special permission of his majesty. By the same decree, travellers generally are required to provide themselves with passports from the Swedish consul resident in the countries from which they come. As these letters are to be in force for only three months, it would seem as if they were intended to meet some temporary apprehension of danger.

London, July 18.

Accounts have been received from Teneriffe, stating, that the Spanish convoy with troops which lately left Cadiz, had brought up in the harbor of the above Island, where one of the frigates had been condemned as not seaworthy. A great scarcity of provisions prevailed throughout the whole fleet, for the public coffers at Cadiz were so low, that proper supplies had not been furnished. This had created considerable uneasiness and dissatisfaction; and a strong remonstrance had been made by the Naval Commanders to the Governor of Teneriffe. The Island was equally as bare of provisions as the fleet; but the Governor immediately laid a forced contribution of 120,000 dollars on the inhabitants, in terms equally severe and urgent as if they had experienced the invasion of an enemy

The sealed orders had been opened, and the general opinion was, they were destined for Lima; indeed, some of the vessels which had a proportion of the troops on board, had been purposely chartered and loaded for that quarter. It is uncertain whether the late important news from Chili would reach the fleet before its eventual sailing, as the information will only arrive at Madrid by the post from England. At all events, the Spaniards will find their great efforts are too late; for, should the expedition go round Cape Horn, the Patriots are now provided with a stout fleet in the Pacific; and should it bend its course towards Venezuela, Brion is fully prepared to give a full account of it.

The Emperor and Empress of Austria arrived on the 2nd inst. at Baden, near Vienna.

It is asserted in an article from Stockholm that the States had approved of the proposal made by the King of Sweden to sell the Island of St. Bartholomew, and to apply the produce of the sale to the liquidation of the Debt of Norway.

A report was in circulation at Hamburgh, that England will probably obtain by negociation a Port in the Baltic.

The Prussian Government has formerly contradicted a rumour that it is intended to make the Duchy of Cleves an object of territorial exchange.

Liverpool letters state that copper had got up to 155d, with a prospect of a further rise.

Flour and wheat were rather looking up; the averages were 3 & 4s above the restrictive prices, and it was considered almost certain that the ports would be kept open till November. Several speculators were buying the best quality at 47 a 48s. In London the last sales were at 48 a 49s

Bark, Ashes, Turpentine, Tar, Tobacco, Timber and Flaxseed remained dull.

St. Petersburgh, June 24.

It seems that our commerce will be very brisk this season. There has already arrived at Cronstadt 387 vessels.

PARIS, July 13.

Fresh arrests, but of obscure individuals, have taken place in consequence of the late conspiracy, and Ministers are pursuing as close an investigation of the case as their delicate situation will permit. It appears that the scheme in question was well combined, and would infallibly have been carried into effect, had it not been for the disclosure made to the King in the manner I explained to you. Ministers were in perfect ignorance of it. Indeed, there would seem no reason for its being abandoned even now, the means of execution still lying in the hands of its framers. The Royal Guard, consisting of Swiss and French regiments, continues to do duty at St. Cloud. A few of its Officers have been removed, it is true, but the rest entertain the same spirit, are equally devoted to the Princess. Ministers have not power or influence enough, either to substitute another guard in its lieu, or even to put officers of their choice over the present ones. It is not clear, therefore, and indeed Ministers themselves are by no means satisfied that the conspiracy is at an end.

This hostility between parties has broken out at an unlucky moment, a time bordering on the elections. Ministers obtained tolerable ones last year by calling the Ultras to their aid. The same resource they cannot expect this year. They are now, therefore, turning about to the *Liberaux*, and offering concessions as to the price of their support. They are tampering with M. Lafitte and Manuel, and, as pledges, are already giving some indications of a change of system. M. Dunoyer is liberated on bail, and his prosecutor, the Attorney General at Rennes, is dismissed. The directions given respecting M. Fabvier and Seurville, under prosecution for libel, are reversed; judgment is to be given in their favor. This state of things has emboldened Marshal Marmont to declare in a letter to the Duc de Richelieu, published in the *Minerve*, that his aid-de-camp is justified in all his assertions against Canuel and de Chabrol, and that a prosecution directed against Fabvier would be one directed against himself. It is expected that Ministers will relent also in their instructions relative to the Editors of the *Bibliotheque Historique*, still on their trial. The proceedings are closed, but judgment is suspended until the 24th. Of course they will be guilty or not, and the sentence be lenient or severe according to circumstances on that day. These same editors are now announcing a *Journal des Elections*, directed by the Society for the Liberty of the Press.

Married,

On Tuesday evening last, in Christ's Church, by the Rev. O. Norris, the Rev. WILLIAM HAWLEY, Rector of St. John's Church, Washington City, to Miss WILHELMNIA DOUGLAS POTTS, of this town.

Died,

On Friday evening last, in the 55th year of her age, Mrs. SARAH FAW, wife of Abraham Faw, Esq. of this town. Her illness was short, and borne by her with that patience and pious resignation to the divine will, which clearly evinced to her distressed family that her hope in her Saviour was of that kind 'which is full of immortality.' In conversing upon her approaching dissolution, she declared that she felt neither afraid nor unwilling to die; that she was perfectly reconciled to God's blessed will.—As a wife her conduct was most exemplary, faithful and tender; she was a comfort, as now she is an irreparable loss, to her bereaved husband. In the discharge of the difficult and often painful duties of a stepmother, she won the highest respect and sincerest affection of her husband's children. In the relation of friend and neighbor, the unfeigned sorrow for her loss manifested by all who knew her, prove that while upon life's troublesome stage she acted well her part, and no doubt can be entertained but that she is now in the possession of those substantial joys which are at the right hand of her God forevermore. Lexington for Sale.

THIS estate, containing two thousand three hundred and fifty acres, more or less, being one half of the well known tract of land commonly called "Mason's Neck," situated on the Potomac, in the county of Fairfax, Virginia, is now offered for sale. About two-thirds of it is covered with an uncommon heavy growth of white and bl'k oak, hickory, pine, poplar, &c. near the water's edge, whence it may be transported to the markets of the district of Columbia, (a distance of 20 miles only) where timber and fuel are always in demand, and without the expense and risk encountered in conveying those articles from situations further down the river: the remainder is in cultivation, and furnished with every necessary building for that purpose: together with orchards and a blacksmith's shop. The

other improvements are a spacious and elegant dwelling-house, kitchen, dairy, smoke-house, office, ice-house, a well of excellent water, and a falling garden, of the most tasteful and costly design, filled with the rarest and most beautiful shrubberies and flowers, exotic and indigenous, all situated on an eminence, commanding a view of the rest of the tract, which extends in an unintercepted plain from the foot of the eminence to the Potomac and Occoquan, by which it is so far bounded as to render the expense of enclosing it comparatively nothing. The prospect, moreover, of the surrounding country, diversified in every direction by sheets of water, is really beautiful beyond description. There are likewise attached to this estate four valuable

however, the subscriber intends to reserve one of them and a few acres of land. The woods abound with deer in such numbers, that with a little care a gentleman might command a constant supply of venison for his table; and besides the large streams abovementioned, the various creeks and inlets that every where intersect the land are covered in the proper season with wild fowl of every description known in our waters. When to all these advantages is added the great natural fertility of the land, which is not exceeded perhaps in the western country, its adaption to improvement by the use of plaster, which has been proved by experiment, its vicinity to society, to market, to two manufacturing grist-mills, to which the distance of conveyance by land and water is not more than 5 or 6 miles, it may with truth be pronounced the most valuable estate, of the same extent, in the whole range of country watered by the Potomac. It will be sold entire or divided to suit purchasers.

The terms of sale will be one-third of the purchase money in hand, the remaining 2-3ds in two equal annual payments, with interest from the day of sale, secured by a deed of trust on the land—which will be shewn in my absence to any person disposed to purchase, by Mr. *William Allison* or Mr. *Weston*, residing on the premises.

Exchange & Broker's Office,
Georgetown, District of Columbia.

ROMULUS RIGGS,

AT his office, next doo below Crawford's tavern, Bridge-st Georgetown, will exchange all kinds of Bank Notes on the most reasonable terms.—All persons who may have notes on the banks of North Carolina, South Carolina and Georgia, would do well to call on him, as he is largely in the purchase of that kind of money, and will take it on the most reasonable terms.—Persons travelling to the Western Country may at all times get the Bank Notes of the Western Banks at a fair discount, by calling at his Office. For the information of all persons throughout the U. States, R. Riggs makes it known, that all of the Banks of the District of Columbia pay their notes on demand in specie; and it would be much to the advantage of the merchants, and trading to the South and west, to encourage the circulation of the Notes of the Banks of Georgetown, Washington and Alexandria; as it will at all times answer for remittances to the large commercial and Atlantic towns;—all persons emigrating or travelling to the westward should be very particular and take the Notes of the Banks of the District of Columbia, as they will find them the most current, there being no counterfeits on the District Banks. The Merchants' Bank of Alexandria has long since failed—all persons should be on their guard, as they will be imposed on. August 18

There is an excellent spring of water on the place, excelled perhaps by none in the state of Virginia. The distance from Georgetown, Washington or Alexandria, being an agreeable ride, he anticipates a share of public patronage, which he hopes his assiduity to business will justly merit.

Piano-Fortes and Organs.

THE subscriber, who carries on the manufacture of these instruments in N. He warrants them perfectly sound, and of the first quality.—He will allow in exchange a fair price for old pianos or organs, being such as he approves.—He also has for sale a few fine toned old violins and elegant bows, and concert flutes.—He is perfectly acquainted with the harpsichord construction, and offers to put them in complete order.

50 Dollars Reward

RAN away from the subscriber on Saturday night the 27th ult, a Negro man by the name of JACOB THOMPSON, aged 22 or 23, nearly 6 feet high, very black, and rather a down look when spoken to—he is very apt to put one hand up to his chin when answering questions. He is a very submissive orderly fellow—His clothing that can be recollected consisted of a blue second cloth coat with yellow buttons, nearly new; Russia sheeting shirts and trowsers, and a variety of other clothing not recollected. I fully expect he must have from 150 to 200 dollars with him in money—and very little doubt but he had furnished himself with free papers. Whoever takes up the said fellow, secures him in jail, and retains all moneys and papers he may have on him, shall be entitled to the money found on him, and the above reward if taken out of the District; or twenty dollars if taken within the District of Columbia. Valuable Estate for Sale.

UNDER the authority of a decree from the Equity Court of Prince George's county, the subscriber will on *Wednesday the 23d day of September next*, offer at public sale, at the house of Isidore Hardy, in Piscataway, a most valuable property, the

Estate of George R. Leiper,

Esq. deceased, so well known by the name of MONTPELIER—about 2 miles from Piscataway, 9 miles from Alexandria, and 16 from Washington city.

This farm, which contains rather more than 600 acres, is truly valuable. The soil is fertile and highly susceptible of improvement by the use of clover and plaster. The buildings are good and commodious, and

the scite of the Mansion, in beauty of perspective and salubrity of air, is excelled by few on Potomac river. To be enabled to appreciate fully the elegance of the situation and all the advantages which result to the possessor of this valuable estate, it is only necessary that it should be viewed, which may be done, and every necessary information obtained, by application to the subscriber, or Mr. *Aquilla Baden*, the present manager of the farm.

The terms of sale are that the purchaser shall pay one-third in ready money, and the residue in two equal annual payments, with interest from the day of sale, to be secured by bond with approved security, and on the ratification of the sale by the court, and the payment of the whole purchase money with the interest thereon due, and not before, the trustee will execute to the purchaser a deed in the terms of the decree. The purchaser on complying with the terms of sale, will have the liberty of seeding a crop of winter grain.

Land for Sale.

THE subscriber offers for sale a tract of 80 acres of land, on the Colchester road, five miles from Alexandria, adjoining the lands of Haywood Foote and Dennis Johnston. The greater part of this tract is fine meadow land, abundantly supplied with water. Also one other tract of 261 acres, on the Ravensworth road, about 6 miles from Alexandria, and one mile from the first mentioned tract, adjoining land of Thos. Janney and Mr. M'Pherson: the greater part of this tract is in wood, the soil good and highly susceptible of improvement from the use of plaster. If these lands are not sold before the first of January next, they will then be for rent.

CHARLES SIMMS.

A long Lease for Sale.

THE subscriber will sell the lease which has 18 years to run, of a small Farm he at present occupies, lying on the turnpike road leading from Alexandria to Washington city, about half way between the two places, and adjoining the lands of Mr. George Wise and Alexander Hunter. The improvements are a snug small Dwelling-

House and kitchen, good stables, spring house and slaughter house, and all the useful tools therein for killing, together with a house with a large kettle for rendering neat's feet oil, which is a good business if properly attended to, and may be made much more so by adding the glue-making, which may be easily done—there is also a good garden and a number of beehives. I will likewise sell a likely young Horse, that

has been well broke to the saddle or any kind of harness, a light cart and harness, a first-rate milch cow, the farming utensils, and household and kitchen furniture of every description, some of which are very good. The whole will be sold for cash, or on a short credit. The lease will be sold with or without the other articles, and immediate possession given. If not sold prior to the 1st day of September next, the above described articles will on that day at 8 P M be offered at public sale on the premises—and if the lease is not sold, the farm will then be rented for one or more years. It is thought unnecessary to give a further description of this valuable property, as it is presumed any person inclined to purchase or rent will view the property prior to that day, and it will be found very advantageous, as there are a number of articles on it which will be sold low and well suited to it. An early application is recommended and the whole will be sold a bargain.

BILL IN CHANCERY.

Robert Perry

versus

James B. Dunnington, Robert Dunnington, Francis Taylor and Elizabeth B. his wife, James Bloxham and Catharine his wife, William Simmons and Esther his wife, heirs of William Dunnington.

THE Complainant alleged in his bill that the Respondents have in possession the real estate of their deceased father Wm. Dunnington, whose personal estate was not sufficient for the payment of his debts. Wm. Dunnington's estate is indebted to the complainant in a large sum of money. The object of the bill is to procure a decree for the sale of the land, for the payment of the debts remaining unpaid by the personal estate. Some of the heirs of Wm. Dunnington are non-residents.—It is thereupon, at motion of the Complainant, ordered that he cause a copy of this order to be inserted in the Alexandria Gazette for the space of three months, to the intent that the absent defendants may have notice of this application, and of the subject and object of the bill, and may be warned to appear in this court in person or by a solicitor, to shew cause, if any there be, wherefore a decree should not pass as prayed. 600 acres of Land for sale.

THIS Tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equi-distant from Baltimore, Washington and Norfolk.

Any one wishing to purchase may apply to ROGER JONES,

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wiley's, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition.—For terms, apply to PHILIP C. JONES, esq. in Leesburg, Va. or to R. JONES.

March Term, 1818.

ON application to Charles county court by petition in writing of John Smith, of Charles county, for the benefit of the act of assembly for the relief of sundry insolvent debtors, passed at November session 1805, and the several supplements thereto, on the terms mentioned therein, a schedule of his property and a list of his creditors on oath, so far as he can ascertain them, being annexed to his petition, and the court being satisfied by competent testimony that the said Jno. Smith has resided two years immediately preceding the time of his application, in the state of Maryland, and being also satisfied that the said John Smith is in actual confinement for debt, and the said John Smith having entered into bond with sufficient security for his personal appearance in Charles county court, to answer such allegations as his creditors may make against him—It is therefore ordered and adjudged that the said John Smith be discharged from imprisonment; and that by causing a copy of this order to be inserted in some one of the newspapers edited in the District of Columbia, once a week for two months successively before the third Monday of August next, he give notice to his creditors to appear before the said Court, at Charlestown, in said county, on the said third Monday of August next, for the purpose of recommending a trustee for their benefit, and to show cause why the said John Smith should not have the benefit of the several insolvent laws as prayed. Dr. Thomson's System of Chemistry.

IN FOUR VOLUMES OCTAVO.

THE preceding edition of Dr. Thomson's Chemistry, had acquired so much reputation both in England and upon the continent of Europe, that a new edition, comprising the new facts with which the science had been enriched, and the new views of the subject which extended knowledge had suggested as indispensable, was eagerly looked for by the scientific world. A new edition has accordingly appeared, wherein the former edition of five volumes has been condensed into four.

All the new discoveries, and all the new theories of Chemical Phænomena, have been considered and embraced in the present improved edition: so that it is indispensable to the chemical student, as presenting the only condensed view of the changes and alterations in chemical doctrine, which the discoveries of the last ten years have suggested. No apology therefore can be necessary for reprinting such a book in this country; for the press does not furnish a substitute for it. But, there is so much theoretical suggestion—so much abstruse calculation—so much fact of dubious authority—and so much dubious validity—that notes and illustrations are absolutely necessary, not merely to render the book more useful, but more intelligible.

Under these impressions, I thought fit to write notes in illustration (and sometimes in contradiction) of the work itself, rather than to make any abridgement of it. Those who wish to know the modern views of chemical science, *must* peruse it; and to very many who will be anxious to study it, elucidation will be necessary. I have endeavoured to supply these, to the best of my ability; regardless whether my own opinions are in dissonance or coincidence with those of my author; leaving to the reader to decide between us.

The work will be published, with notes and illustrations, in four volumes 8vo.

THOMAS COOPER, M. D.

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from *LEE's MEDICINE STORE*, No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitina or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of person can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
